

OMATION® Series 410 Envelopener™

Compact envelope opener with quality ink jet printing.

Perfect for mail centers that need to open, and date stamp between 200 to 2000 envelopes a day.

The OMATON® Series 410 Envelopener™ is an excellent addition to the legendary OMATON product line. Employing state-of-the-art milling cutting edge technology, the Series 410 is a compact tabletop

envelope opener ideal for teams that need to open mail of mixed sizes and thicknesses as well as print receipt information on the envelope. The Series 410 quickly and efficiently opens mail at up to 400 envelopes per minute.

Proven milling cutter technology

- Minimizes cut contents.
- Provides soft, feathered edge to eliminate painful papercuts.
- Opens envelopes completely, "edge-to-edge" for easy content removal.

Quality ink jet printing

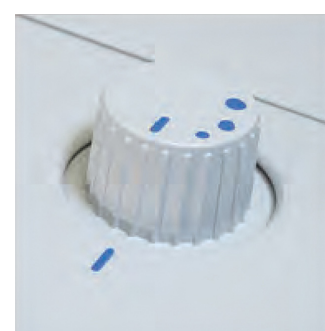

- Select from a variety of print jobs.
- Print date and time audit trails.
- Print a unique sequence number for traceable mail
- The two-speed motor is ideal for printing receipt information on envelopes.

Easy to view operator screen

- The 5.5" display provides access to job functions and settings.
- Simple navigation allows operators to quickly and easily select jobs.
- Easy to read digital counter.

Three optimal cut depths

- Use one of three "cut depth" settings to open thin to thick mail and flats
- Count envelopes without cutting using the "no cut" setting.
- Open 3,500 envelopes before emptying the large capacity chip tray.
